Summary

Experienced Full-Stack Developer with a demonstrated history of working in the Information technology and services Industry. Scaling new heights of success with hard work and dedication and leaving a mark of excellence on every step, targeting given assignments with an organization of high repute.

Experience

Codentrix Technologies Pvt Ltd., Software Engineer,

Guindy, Chennai
Sept 2021 to Present
2 years 6 months

- Proficient in UI design using HTML, CSS, and JavaScript, with a focus on React for dynamic web applications.
- Experienced in developing reusable and modular React components, enhancing code maintainability. Familiarity with state management solutions like Redux or Context API for efficient management of application state.
- Skilled in utilizing React Router for client-side routing, enabling seamless navigation between views/components.
- Proficient in AJAX and API integration with React, facilitating smooth data flow between frontend and backend systems.
- Spearheaded development of Python-based web services using REST architecture, proficiently managing JSON data exchange with external interfaces.
- Led end-to-end development of a SaaS application with Django, including database schema design, CRUD operations, and server-side business logic implementation.
- Architected and implemented comprehensive database schemas using Django migrations, showcasing expertise in database design and management, particularly with PostgreSQL and MySQL.
- Built APIs for interfacing with clients' ERP software, demonstrating integration skills and understanding of external systems.
- Extensive experience in authentication and authorization within the Django framework, including role-based access control and secure authentication protocols implementation.
